MICHAEL BREAUX

INNOVATION AND TECHNOLOGY | MICHAELBREAUX.COM

OBJECTIVE

Seventeen-year veteran of technology seeking a management position where my comprehensive technical and leadership expertise will accelerate growth and innovation.

SKILLS

I excel at rapid software adaptation and deployment. Historically, I have been engaged in architecting and engineering most viable products and proof of concepts. Further, I have led operations to advance these initiatives to scale at the enterprise.

EXPERIENCE

AI PLATFORM AND OPERATIONS LEAD • COCA-COLA 8/17 TO PRESENT

Currently, I lead a team of people comprising platform administration, development, support and product management. My responsibilities include establishing governance procedures, platform stability, quality and timely product deliverables, effective issue resolution and implementation of emerging technology adaptation.

I have architected, implemented, and lead the enterprise wide platforms and operations for the Artificial Intelligence, Robotic Process Automation, and the Humanoid Robotics initiatives. In the first year, these initiatives have delivered 28,000 hours in time savings to the business.

SR. SOFTWARE ENGINEER • COCA-COLA 4/12 - 8/17

Led the technical development of global projects including SharePoint migrations, video platform, ideation platform, Virtual Experience, and Digital Signage. Developed and implemented standardized code libraries and processes. Conducted code reviews and provided mentorship to other developers within the organization.

SR. SOFTWARE ENGINEER • E*TRADE FINANCIAL 5/01 - 2/10

Led the retail development life-cycle to ensure the delivery of quality products in adherence to the specified requirements and established protocols. Created reusable prototypes for emerging technology initiatives.
